2019 Pool Closing & Winterization

* We highly recommend customers bring in a water sample two weeks before closing to ensure that water chemistry is correct before the closing. It is the customer's responsibility to keep chemistry balanced. We are unable to balance pool water the day of closing (especially Calcium and Alkalinity). *

Please do not add any algaecide or shock to your pool two weeks prior to closing. Begin to reduce your levels during this time. We will not pump out any high levels of chlorine/biguanide/hydrogen peroxide onto your lawn at closing. If we cannot close due to high chlorine levels, we can add a chlorine neutralizer (which takes 24-48 hours to work) and reschedule your closing as soon as possible. You will, however, be charged a show-up fee, a 15 minute service call and the cost of chemicals. We will not close any pool with a current chlorine reading above 2 ppm. We will not be held responsible for any vegetation damage due to the discharge of pool water.

Winterization includes: lowering pool water level (**Should permits be necessary for pumping the water from the pool, it is the customer's responsibility to obtain these permits.**), blowing of all plumbing lines and equipment of water, plugging the lines, adding non-toxic anti-freeze to the lines, and installing plugs and "gizzmos" as necessary. We will disassemble and clean filter elements with a de-greasing agent and reassemble the filter for 2014 use. We remove the start/stop clips from your timer and turn off the breaker to your pool pad if accessible. We remove and store handrails, ladders and diving boards at no extra charge (if necessary please mention). We close off all heater gas valves that are accessible. If selected, we add winterizing chemicals. **Standard winterizing does not include cleaning the pool or the removal and storage of equipment off the equipment pad (add'l charges incurred in these instances).**

Pool owners are responsible to refill their pool if mandated by the manufacturer and to maintain the water level through the winter. It is agreed that Pool Pro will not be held responsible for any structural damage or wrinkles to vinyl liners.

Prior to our arrival, all supplies (covers, plugs, gizmos, etc.) needed should be out and visible at poolside.

Pool Pro will not be responsible for pool covers that come off due to severe weather conditions, such as high winds, heavy ice and/or snow loads, etc. Also, we cannot be responsible for air pillows deflating or water tubes bursting over the winter season. Water tubes & air pillows have a 30 day warranty. Any problems with these products must be brought to our attention immediately. We are open through the winter and we also offer winter maintenance service if needed.

Thank you - we appreciate your business!

- POOL PRO

***BLOW LINES ONLY: Included in winterization; No need to select both. If selecting blowing lines only, customer is responsible to lower water level. Equipment must not be winterized prior to this service. If pump, filter, etc. is not in operational order, additional labor charges will be incurred. Service includes 1 pump and 1 filter, for additional pumps/filters add \$50.00. Winter Plugs, Antifreeze, and Gizmos are included.

We cannot remove excessive amounts of leaves, debris, etc. from your pool at closing. If you need our valet services prior to closing, please inform us at least one week prior to closing of your pool. If we arrive for a pool closing and we cannot close the pool due to circumstances beyond our control you will be charged a travel fee up to \$50.00.

Please do not add any algaecide or shock to your pool two weeks prior to closing.

In-Ground Pool Closings

__ Winterize Pool-----	\$275.00
__ Winterize Pool & Spa-----	\$320.00
__ Winterize Pool & Waterfall-----	\$320.00

TRAVEL FEES

(Based on MapQuest)

15-20 Miles-----	\$25.00
21-30 Miles-----	\$35.00
31-40 Miles-----	\$45.00

Please indicate the **week** you would like to have your pool closed:
 1st Choice: _____ 2nd Choice: _____

When pumping down pool, where should we direct water? _____

How much discharge hose should we bring? _____
 (If more than 75 ft, additional charges may apply)

Where should we store your pool accessories? _____

Do you authorize us to supply you with additional waterbags (if applicable)? ____ Yes ____ No

The cost of winter plugs, "gizzmos", filter cleaner, and non-toxic anti-freeze is included in the price of winterization. However, any supplies that you have, including cover, should be at poolside prior to our arrival.

Method of Payment: All customers must provide a valid credit card prior to services being completed. Please call with this information.

Payment is due in full upon completion of services. If you are unavailable the day of services, payment will be charged to your credit card. We will mail you an itemized invoice and credit card charge slip. Payment by check or cash must be pre-authorized by POOLPRO management. **All services require a signed contract. All payments are due upon receipt of invoices. Payments in excess of 10 days will be charged at the rate of 1 ½% per month.**

I hereby authorize the above work to be completed. I agree to the terms and conditions as set forth.
